

CLOSURE BEARING COMPONENT FACTORY

Following the closure of the Tsubaki Nakashima factory in The Netherlands, UTB has acquired all machines, equipment and tooling, which we now offer for sale

Transfer Presses

Cage production line

Polishing & Treatment

Tooling & Other equipment

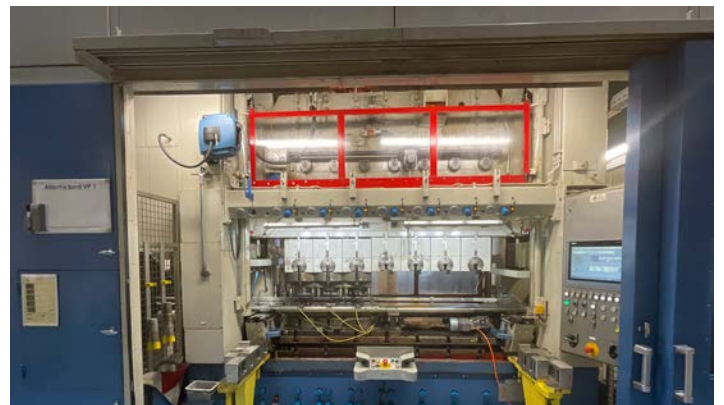

WEINGARTEN 600T TRANSFER PRESS

- Stations: 8
- Strokes / min: 15-50
- Max. product diameter: 250mm
- Max. sheet thickness: 4mm
- Max. sheet width: 450mm

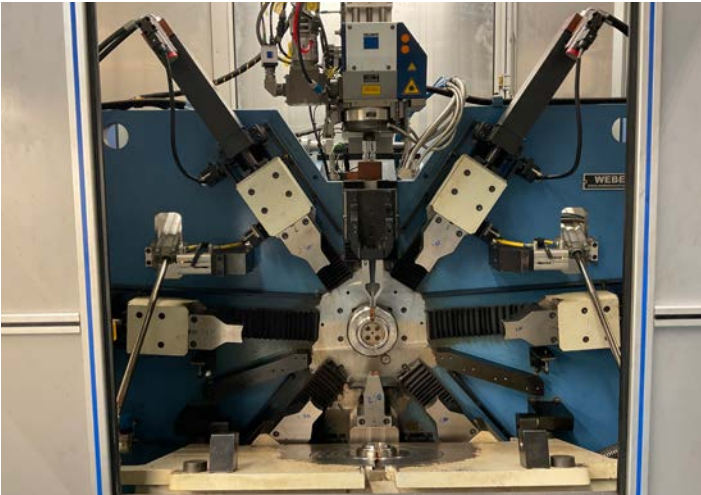

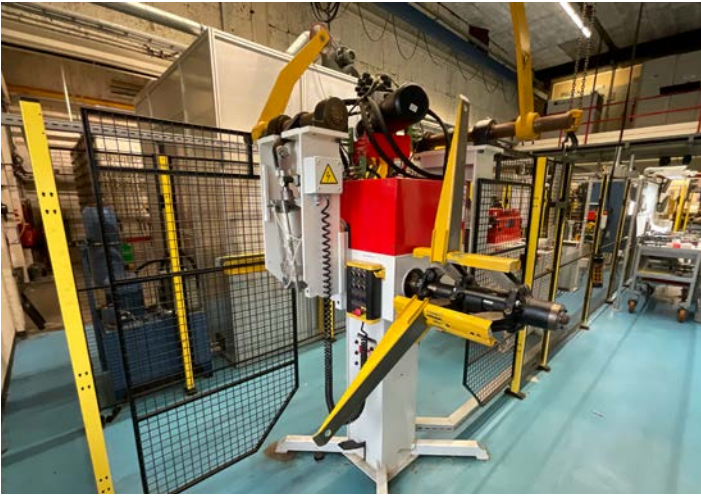

DESCRIPTION

- Stations: 7
- Strokes / min: 25-75
- Max. product diameter: 130mm
- Max. sheet thickness: 3mm
- Max. sheet width: 300mm

CAGE PRODUCTION & LASER WELDING

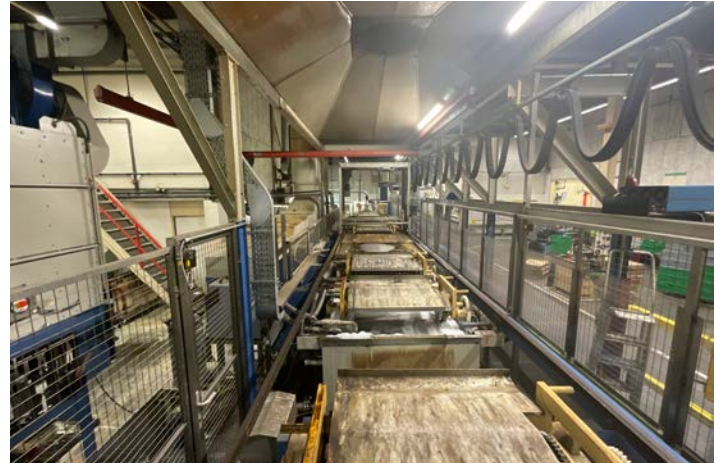

DESCRIPTION

Complete line for producing bearing cages.

The complete line consist of :

- Strip de-coiler | Dimeco
- Strip straightener | Dimeco
- 2 presses for hole punching | Weber
- Strip bending machine | Weber
- Laser welding | Trumpf

DESCRIPTION

Bearing cages treatment line. The line, consisting of 11 stages is fully programmable and automated. A selection of available stages are:

- Shot blasting
- Cleaning
- Manganese & Zinc Phosphating
- Nitro Carburizing
- Electroplating
- Drying
- Conserving | Corrosion protection

DESCRIPTION

3 vibro polishing machines

Make:

- Cetema
- Trowal
- Spaleck

DESCRIPTION

Washing machine for cleaning bearing cages & metal parts including full conveyor system.

- Washing
- Rinsing
- Drying

TOOLING & OTHER EQUIPMENT

Following the closure of the Tsubaki Nakashima manufacturing plant in The Netherlands, UTB has acquired all machinery, equipment and tooling.

ABOUT TSUBAKI NAKASHIMA:

Tsubaki Nakashima Netherlands B.V. part of Tsubaki Nakashima Co. Ltd (TYO) supplied sheet metal components to two main market segments, industrial and automotive. For more than 45 years the production of sheet metal parts has been a valued and integral part of the manufacturing output of Tsubaki Nakashima, complementing the established global roller business. Following restructuring of their operations, the decision was taken to close the manufacturing plant in Veenendaal, The Netherlands.

UTB INDUSTRIAL ACQUISITIONS:

UTB Industrial Acquisitions, based in The Netherlands (www.utb.eu/en) specialises in acquisitions of complete production plants, real estate and machine parks within various manufacturing industries (for example automotive, metal, packaging, paper, etc).

For every situation of business closure, bankruptcy or factory relocation, UTB has a tailor-made solution. For each situation options for continuation, re-industrialisation and re-marketing of the machinery are evaluated.

To see the projects we have executed please visit our website www.utb.eu/en

In case you are interested in any of the machinery shown in this brochure, please feel free to contact us: info@utb.eu.
